NUMBER 39

Lewis Lawley Is A Candidate For The Board of Revenue

Mr. Lewis Lawley, prominent citizen and business man, of Montevallo, has entered the race as a candidate for member of the County Board of Revenue in the Second District. The many friends of this popular man believe he will be a winner when the votes of the Democratic primary of May 3, are counted.

Mr. Lawley is a man of sterling character and his popularity among his wide circle of acquaintances is universal. He is a member of the Baptist Church and prominent in fraternal circles. For the past 8 years he has been engaged in the mercantile business at Almont. Besides his store, he also owns a farm in the Pea Ridge Community.

Mr. Lawley has never held public office. In fact, this is the first time he ever asked for one. His sturdy qualities, fine character, and business ability are pointed out by his friends as attributes that will enable him to discharge the duties of membership on the Board of Revenue with efficiency.

GIRL SCOUT COUNCIL MEETS

The Girl Scout Council held its regular monthly meeting last Thursday in the Methodist Church. Mrs. A. W. Vaughan, commissioner, reported on the progress of the girls. Mrs. J. L. Appleton, badge chairman, gave an interesting talk on the different badges of Girl Scout work. She reported that Miss Ollie Tillman, nurse at Alabama College, is now directing a group in home nursing in cooperation with troop captains. These girls will soon be ready to pass their home nursing test. The Council members present were Mrs. Vaughan, Mrs. Appleton, Mrs. Paul Rogan, Mrs. O. B. Cooper and Mrs. E. P. Hood.

Miss Gene Lewis of Montevallo was named on the secretarial staff of the Carolla, student yearbook, at the University of Alabama last week.

Miss Lewis is a junior in the School of Arts and Sciences. She is a member of the French Club and Art Club.

LEWIS LAWLEY

Lewis Lawley, whose likeness appears above, may be recognized by a large majority of our citizens, as he is widely known and universally liked. He deserves much credit for making a success as a merchant in a location heretofore characterized mostly by failures. Of a pleasing personality and with a name synonymous with honesty, sobriety and integrity, his one aim in asking the support of the voters of the Second District is that he may serve his community and his fellow-citizens diligently and capably.

A Business Review Of Montevallo

The Times presents a business review of Montevallo in this issue. It is a fairly accurate and representative review of the business concerns in this community and vicinity.

The business concerns represented in this issue are making a strong bid for patronage of the people who trade in Montevallo, and at the same time are affirming their determination to fill their places as important functioning units in the development of the commercial, social, civic, educational and religious aspects of Montevallo. They proudly and properly recognize this as one of the proving grounds of Alabama's cultural sections.

It is our hope that each person who receives a copy of this issue will find it of interest as well as profitable to read the advertisements of Montevallo concerns and read the stories about the people behind these businesses.

A number of the stores are offering price reductions. Others offer suggestions about the services that they are equipped to render.

The Times is indeed grateful for the splendid patronage local business concerns have given us. We are trying to give them a full measure of benefit by mailing out a large number of extra copies, and it is our hope that each business man will be greatly benefited thereby.

Montevallo is known far and near as being one of the biggest little towns in the state. It has acquired this distinction on account of its up to date business district. Homes, residences, and churches would reflect credit on any city several times the size of Montevallo. Everybody apparently takes a pride in keeping their places of business, homes and other property in an up to date way, which combines to make it a community of which each of us are proud.

One very effective way each citizen in this section can render a real help to Montevallo, is to do all of their trading possible here at home. Montevallo stores carry practically everything shoppers need, and prices compare favorably with any stores in the larger cities, and we do not believe that any person ever saved a dollar by going elsewhere to shop.

When we shop in Montevallo we are helping to boost a local concern, and as each business house means much to the progress and prosperity of this section, we are helping to make this a better and more prosperous place in which to live.

FOR GOVERNOR

FRANK M. DIXON

Hon. Frank M. Dixon, of Birmingham, has announced as a candidate for Governor of Alabama. Mr. Dixon was in the race four years ago, and gave Bibb a run for his money. Dixon supporters by the thousands are ready to go to the bat for him again—and they are confident and determined that he shall go over the top this time.

DR. HINES CANDIDATE FOR STATE SENATOR

Dr. J. A. Hines, well-known and popular young physician, of Siluria, aspires to serve the fifteenth district in the State Senate of Alabama. He has made formal announcement of his candidacy, and has traveled in some parts of the district, meeting the people and discussing issues with them. One day last week he was in Montevallo, making a visit to The Times. It was indeed a pleasure to meet him.

At present Dr. Hines is a member of the Shelby County Board of Education, in which capacity he has contributed a most commendable public service on behalf of our schools.

HON. JOHN A. DARDEN CANDIDATE FOR SOLICITOR

Hon. John A. Darden, prominent lawyer, of Goodwater, was in Montevallo Tuesday in the interest of his candidacy for the office of Solicitor of the 18th Judicial Circuit, composed of the counties of Shelby, Clay and Coosa.

Mr. Darden stresses three points in his appeal for votes in the May 3 primary:

1. The office of Circuit Solicitor should rotate among the three counties—Clay and Shelby have had this officer.

2. It is Coosa's time to furnish the next Circuit Solicitor.

3. Incumbent, of Clay, has held this office for three successive terms—12 years. Has he any claims on the voters for another term—or in all, 16 years?

In placing his announcement in The Times, Mr. Darden said, "Tell your readers, Mr. Editor, that I respectfully solicit and will deeply appreciate their votes and influence."

COMMUNITY CHEST REPORT

The Welfare Department has endeavored to curtail requests to the Community Chest during January as it was felt that there was danger of exceeding the allotment to the Welfare Fund. This has meant that some needs have not been met. The school lunches have been continued though it was possible to remove two children from the list.

Grocery orders were given to only two families. One was to a Negro woman with three children. She was ill and evicted from her house. The children have continued out of school due to the lack of clothing but the grocery orders have prevented acute hunger. Efforts to secure public assistance have been delayed due to complications caused by the woman's several marriages. The other grocery orders have gone to an old colored man who has applied for old age assistance. Investigation of relatives has not been completed.

Two emergency hospitalization demands were met without drawing from the fund. Both were cases of strangulated hernia. The Crippled Children's Service accepted the expenses for a colored boy of twenty years. In the other case the landlord gave the family credit after the hospitalization plans were worked out.

There seems to be an acute need for tonsectomies as several children in the Montevallo schools already have rheumatic symptoms. Dr. Gould, of Wilsonville, has agreed to perform a tonsectomy for eight dollars. Two little girls were taken this month. One had already had rheumatic fever and the other had for months been un-

able to sleep or let the family sleep because of her noisy breathing. She has a sister in high school whose joints swell so that at times she cannot stand up. Dr. Gould found both children so malnourished that cod liver oil was pronounced essential. This was provided from the Welfare Fund of the Community Chest.

One pair of shoes was given. Other requests for shoes for school children have not been met.—Elizabeth Allen, Supervisor of Case Work.

Atlas Service Sta.

Operates One of Most Popular Stations in Territory

Located on one of the most popular corners in town, the Atlas Service Station is probably one of the busiest stations in this section. The station is so arranged that it is easy to drive in easy to drive out, but the main point is that when a person drives here he gets such a good service it makes him want to come again.

They sell a complete line of Standard Oil products, which in addition to gasoline and oils, include Atlas tires, the tire, which for years has been giving car owners in this section such fine satisfaction.

They are sold at popular prices and it is not unusual for an Atlas tire to go twenty or more thousand miles, when they are properly cared for.

Pete Givhan, manager, has had charge of the business for the past three years, and his good service and hospitality to all who drive here is winning many new customers.

Montevallo Drug Company

Operate Largest and Most Complete Drug Store in Territory

Few, if any, communities in the state the size of Montevallo can boast of a more up to date drug store than the Montevallo Drug Company's store.

When a person first enters the front door he can tell at a glance that it is modern and also well stocked. In fact the store is known far and near as a place where everything in drugs can be secured.

One of the outstanding features of the store is that they have a large seating capacity for those who desire to enjoy a cold drink or ice cream, which are served from the modern fountain.

The prescription department is like all other services rendered, it is well stocked, and a registered pharmacist is here at all times to

render an accurate service.

Z. S. Cowart, owner, is operating a business that is of real service to the public, and that the public appreciates his efforts to serve and serve well is shown by the fact that this is one of the busiest places in the Montevallo section.

Together with his brother, Cecil, he operates two modern drug stores at Calera.

Mrs. Fred Willingham is visiting her daughter, Mrs. H. Ralph Smith, in Birmingham.

The 1935 legislature passed what is referred to as the "deficiency judgment bill." This bill provides that when a mortgage is foreclosed the mortgagor must have credit on his indebtedness for the reasonable market value of the property foreclosed. Methods are provided for ascertaining the reasonable market value. This prevents the mortgagee from buying in the property at the sale at a very low figure and then going into court and obtaining a judgment against the mortgagor after he has recovered the property. The law is an emergency measure and expires on October 1, 1939.

J. A. Brown and His Enterprises

Operates Seven Business Concerns In County; All Are Popular

J. A. Brown established in business in Montevallo in 1906, and few business men in the state have maintained their business on a more substantial basis through good times and depressions.

He has not only maintained his established business places which he has operated for years, but he is continually adding new lines. Today he operates seven different business concerns in Montevallo and the county.

When Mr. Brown established his Golden Rule stores he did so with the idea of impressing the public that here it could get a square deal. In fact, this has characterized his business methods since the first engaged in business, "To Do Unto Others as We Would Have Others Do Unto Us." There is no doubt but what his efforts to maintain the Golden Rule in his business transactions has in a large measure contributed to his success, as the

public knows through many years of dealing with him that it will get a square deal. It has patronized him through good times and bad times.

The lines represented are a Golden Rule Store which for many years has been very popular with the public; he has two modern ice plants, one in Montevallo and the other at Calera. He operates a modern cotton gin, and is one of the largest cotton buyers in this section of the state. In fact, his efforts to aid growers by paying the highest possible prices for cotton is the direct cause of hundreds of bales of cotton being brought to Montevallo each year that would otherwise go to another place.

For years he has operated a wholesale gasoline business and in order to supply his growing number of customers with the best standard brand, he, during the past year took over the distribution of Gulf products for the county. That Gulf products are popular is shown by the increased patronage received by those who sell this widely known brand.

On January 1st, he established a new business, the manufacture of cotton bagging and ties. Like all of his other lines of business he is establishing this on a substantial basis, and will without question prove to be a major success, but it will also be a boost to Montevallo, as it will be necessary to employ a large number of people, which will greatly augment the pay rolls in this section.

Each of his different lines of business is one of the leaders in its respective line, and to state that through his progressive efforts he is contributing much to the growth

Merchants And Planters Bank

Are Rendering An Unexcelled Banking Service to Public

In writing about Montevallo and this section, The Times takes pleasure in calling attention to the Merchants and Planters Bank, who, since soon after the turn of the new century, have rendered an uninterrupted banking service.

The bank's capital, surplus and profits, as shown in the December 31st statement, total \$38,328.71. The total resources are \$350,043.89, and total deposits aggregate \$302,618.15. It is of interest to note that of this amount of deposits, that \$119,280.47 is time deposits. The time deposits represent the amount that a number of local citizens have laid aside for a rainy day. It not only shows the healthy financial condition that this section is in, but it also reflects the confidence that the public has in this well managed bank.

As an added guarantee to customers they offer a guarantee on deposits up to \$5,000 through the Federal Deposit Insurance Corporation, and there is no reason for those who have idle funds not to place them in this strong and growing bank.

Officers of the institution are: Dr. T. H. Napier, Dean of Alabama College, president; F. H. Frost, owner of the Montevallo Lumber Company, vice president, and J. P. Kelly, who has rendered the bank's customers such a fine service for years, is cashier.

The directorate includes some of the best known citizens in this section. They are: Dr. T. H. Napier, F. H. Frost, J. P. Kelly, W. P. McConaughy and Judge L. C. Walker.

Personal property has not always been taxed in Alabama. The constitution of 1875 brought into operation for the first time the general property tax. Prior to this time the ad valorem tax was restricted to lands. Some personal property was taxed but it had to be specifically mentioned in the revenue law and was not taxed unless so specified.

Alabama farmers received \$10,287,079.43 in benefit payments for participation under the 1936 Agricultural Conservation Program. Alabama received more payments than any other state except Texas.

and progress of this section is a statement of fact which everyone knows.

ACCIDENT DEATH TOLL INCREASES ONE-THIRD

Alabama deaths from motor vehicle accidents increased from 525 in 1934 to 698 in 1936, the increase amounting to slightly less than 33 per cent, as compared with an increase of approximately 5½ per cent for the United States as a whole, according to figures obtained by the State Department of Health

from the Bureau of the Census of the United States Department of Commerce.

This state ranked in nineteenth place among the states of the Union in the number of motor vehicle deaths occurring in 1936. It ranked in seventh place among Southern states, its deaths from this cause being greater than that of any other state in this area except Georgia, Kentucky, North Carolina, Tennessee, Texas and Virginia.

High School News

(By Bob Anderson)

The Senior I (Sophomore) Class of Montevallo High is having their first dance of the year Saturday night, at the school. Bids for this affair are being given out now by Frances Bassett, chairman of the committee on invitations. The Senior I's are not inviting any outsiders to their dance. No alumni of the school are invited. Only high school students and faculty members may come.

The Senior Class members have put in their order for graduation exercises invitations and calling cards, ordered annually by all Senior Class students. These have been purchased from the Birmingham Engraving Company.

Miss Utterback, Senior Class sponsor, and director of the Senior play, has announced that the play is well under way, and that by the first of March the cast will begin night practices in Palmer Hall.

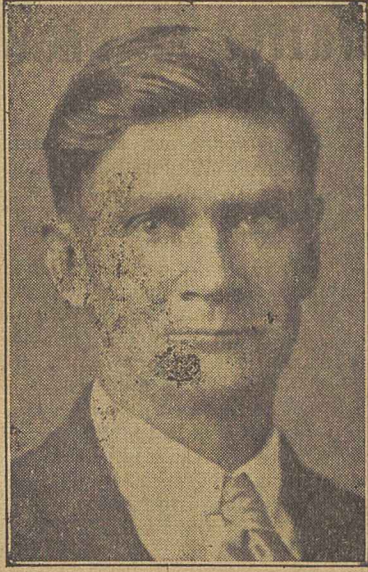

The "Spotlight," Newspaper Club publication, is conducting an "Institute of School Opinion" poll. Questionnaires, prepared by John Orr, who is in charge of the project, have been filled out by every student in school. Questions which will show the feeling of High School students on several subjects were included on the papers. The main issue taken up by the poll this time is "Should America Increase Her Armaments?" Besides this question there are topics dealing with radio programs, popular movies, and other interesting subjects.

Klotzman Bros.

For twelve years Klotzman Brothers have catered to the public in Montevallo and this section in the dry goods and clothing business, and from a small beginning the business has grown to the point where it is now one of the largest and most complete stores of its kind in this territory.

The stock consists of everything to wear for everybody and with a store like this located in Montevallo there is no need for anyone

R. Frank Lyon Is Candidate for Co. Treasurer

Mr. R. Frank Lyon, of Columbiana, is a candidate for County Treasurer. He was in the race four years ago, and ran third in the primary.

Mr. Lyon was born and reared in Beat 9, Wilsonville. He has been a teacher in the elementary schools for over 30 years. He is a lifelong and active member of the Baptist Church and Sunday School.

"I am a straight Democrat," he says. "I stayed with the party when it was down, and I rejoiced with it in victory. I now ask my friends to let me serve our county as your treasurer, and I will appreciate the support of all."

to leave here to secure the best lines and best values. They have the stock and sell good merchandise at as low prices as can be secured in any store in larger cities.

In fact, their complete stock and low prices are attracting many people from other sections here to shop, and the business serves as a real convenience to all who live in this section. Joe and Sam Klotzman, owners, not only operate an up to date business but they also take a very active interest in all civic affairs, and are a valuable asset to the business of Montevallo.

Montevallo Brick & Tile Co.

In writing about Montevallo, its businesses and industries, The Times takes pleasure in calling attention to the Montevallo Brick and Tile Company, which is the largest manufacturing concern in this section of the state.

They manufacture face, rough and firing brick and sell drain and ornamental tile of all kinds. The public has only to visit the plant to see that they have every modern equipment to aid them in the manufacture of modern superior products.

The operation of this business here has had, and is having, a healthy influence on local trade, as the monthly pay roll amounts to a large sum and it is a direct benefit to many local business houses as well as to the many who are employed here. Employment is given to 26 people.

Luther Shaw, manager, has operated the business for the past 11 years, and he is to be congratulated for the operation of a business which is such a fine asset to this section.

The Dollar Store

The Dollar Store is one of the busiest places in Montevallo at the present time, as they are holding a store-wide special sale.

The reason for this special sales event is due to the fact that they consolidated the Dollar Store with the Dixie Store recently, and it is their plan to close out every article in stock to make room for new spring goods.

In fact, the public has learned from years of experience that when Ike Nathews, owner, puts on a special sale, that it is a bargain event in all that the words imply. Consequently, the store has been and will continue to be a busy place until all of the stock has been disposed of. Prices have been marked down so low that shrewd shoppers in large numbers are taking advantage of the opportunity to save, and those who have not

visited here during the sale will find it an advantage to do so.

Mr. Nathews has been a resident of this section of Alabama for more than a third of a century, and has operated this business for ten years.

It is not amiss to state that no one devotes more time and effort in helping to work for the good of this section than he does, and he is particularly doing a great work in helping boys and girls in school to have every advantage in athletics. All Montevallo appreciates his untiring efforts.

The Montevallo Lumber Co.

The public in Montevallo and this section is served and served well in the lumber and building material line by the Montevallo Lumber Company, who for years have rendered a fine service.

The stock consists of lumber, frames, doors, roofing, paints, and all other lines that the public would expect to find in an up to

date lumber yard.

They also operate a lumber mill and are in a position to work up special orders in a minimum length of time.

As there is a real need for new homes in Montevallo, there will without doubt, be much activity in the building line here this year. There is also a real need for much repair work on homes and other buildings and those who plan to build or make repairs will find the Montevallo Lumber Yard in a position to deliver true to grade lumber at prices that will appeal to everyone, as they have the stock and facilities to render service.

F. H. Frost, owner, has operated this business for the past 12 years. He is also vice president of the Merchants and Planters Bank, and takes a very active interest in all civic affairs in this section.

GOLDBERGS PURCHASE BUSINESS HOUSE

Goldberg Brothers, of Sylacauga, have purchased the Mitchell Building formerly occupied by The Dollar Store. It is said the new owners will rent the building for business purposes.

MAYWOOD DAIRY

To the People of the Montevallo Community and Shelby County:

Two years ago the writer purchased the business of the Montevallo Mercantile Co., from P. J. Kroell

At that time I was a complete stranger to you and this section, however, the people of this section had been recommended to me very highly, not only in a business way, but as good neighbors, and I am glad to state with all frankness that they have fulfilled my most ardent expectations.

THE WHITE HARDWARE COMPANY is now beginning their THIRD YEAR in business here, and wish to take this opportunity to thank each and every one of you for the generous and kindly treatment accorded us for the past two years, and we feel that this, our third year, will be the very best of all.

We feel that we are in a position to serve you more satisfactorily than ever, as we are more familiar with your requirements, and this will enable us to carry the goods you want, and it will be our constant effort to have on our floor at all times the article you wish, and at a cost to you

that will be the means of inducing you to TRADE with your HOME MERCHANT.

We do not have the space to mention in detail the varied lines in our stock, but "EVERYTHING IN HARDWARE," which appears on all our letter heads and statements means just that.

We endeavor to confine our business as far as possible to hardware and kindred lines and feel that we are entitled to your business on such, and for your other needs, such as dry goods, clothing, drugs, furniture, seeds, and other requirements, it is our wish and desire that you patronize those merchants of our city who are classed as dispensers of such items, and we are confident they are in position to give you the service you wish.

Sincerely yours,

WHITE HARDWARE CO.

BOY SCOUTS

(By John Orr)

"CHEE, T'ANKS GOILS;"

This is the Montevallo Boy Scouts' expression of gratitude for the Girl Scouts' congratulations last week in The Times. The occasion was the anniversary of the Boy Scout movement.

Thanks, girls, and the same to you. — The Montevallo Boy Scouts.

There was a nice attendance at the Boy Scout exhibit in the Methodist Church last week, but due to the fact that not many people knew about it, the Scouts decided to show their work some more. Sometime this week, the entire display will be put in a down-town window for everyone to see.

The exhibit includes displays on certain Merit Badge tests, First, Second and Tenderfoot tests, and other things.

The exhibit was originally made for Boy Scout Week (which was last week).

Scoutmaster Dobbins has borne the brunt of an avalanche of ribbing since he became the proud father of a boy last week. Bob Anderson accused him of going around with a perpetual grin on his face since the event. When asked when he was going to pass out cigars to the Scouts he answered, "I'll pass them around if you'll smoke them." Needless to say, none were passed out.

Mr. Dobbins received a beautifully ribboned "congratulations" card, thoughtfully sent by Donald Vaughan's Bob White Patrol.

Despite bad weather, there was a good attendance at the meeting Monday. P. M. Cain's "Wolf" patrol presented the program which had to do with ill-fated auto trips.

Bob Whites are in charge of the program next week.

CONGRATULATIONS

To Mr. C. G. Dobbins, our Scoutmaster, and to Mrs. C. G. Dobbins, we extend our heartiest congratulations, and to Master Peter Young Dobbins, age one week, we extend, on behalf of the troop, an honorary membership to Troop 59, Boy Scouts of America, Montevallo, and to our patrol.—The Flying Eagle Patrol, Troop 59, Montevallo, Ala.

Walter M. Shaw

Walter M. Shaw has the distinction of operating the oldest established insurance agency in this section of the state, having been actively engaged in this business for the past twelve years.

He writes insurance of all kinds, but devotes a considerable portion of his time to looking after the interests of the Mutual Life Insurance Company of New York, for whom he is district manager.

He not only represents this company but is recognized as one of their leading representatives in the state. For many years since he became associated with this nationwide organization he has been a member of the \$250,000 club. This is a goal to which many representatives aspire but only a few reach it.

Mr. Shaw is recognized throughout this district as being one of the leaders in the insurance business and enjoys a large acquaintance. Many people look to him for their insurance needs.

The Gulf Service Station

The Gulf Service Station is one of the most popular stations in this territory. It is located near the business center of Montevallo and is in a convenient place for everyone.

Gulf products are sold exclusively and all motorists know that this is one of the best standard brands on the market. In fact, Gulf products are one of the most popular brands in all states where it is sold.

The station is equipped to give prompt service to all. The good service which each customer receives is winning many new patrons to this popular station.

E. G. Mahaffey, manager, has operated this business the past year and his efforts to give the public satisfactory service, whether they need gasoline, oil, a tire changed, or the car washed and polished, is meeting with the approval of a great many people.

Those who have not tried his good service and good products will find it, time well spent to drive here the next time they need any service that he renders.

Sports Spotlight

Although the basketball squad at Montevallo High last week didn't come out so well, Coach Collins seemed optimistic about this week's schedule. A game was played last night with Vincent. Thursday the team will meet West Blocton at West Blocton. Two games will be played by the A and B teams of both schools. These games will start at 7 p.m.

Friday the Ensley team, from Birmingham will come down for a game in the College Hangar. This game is scheduled for 7:15. Saturday night, M. H. S. plays the return game with Maplesville, on Maplesville's home court. The score of the Maplesville game of last week was so close that Montevallo is out to win this week.

The scores for the past week are as follows:

Friday, here, Maplesville 30, Montevallo 26.

Thursday, there, Marion 35, Montevallo 32.

Wednesday, there, Clanton 45, Montevallo 19.

Next week ends the basketball season for Montevallo except for the annual tournament held in Bessemer week after next. There are two more games scheduled before the tournament, with Phillips and Ensley.

The planting of shrubbery around Palmer Hall has added much to the delightful setting of this imposing edifice, which is the administration building at Alabama College.

Mr. and Mrs. J. L. Kincaid of Birmingham spent the week-end with Mrs. Della Mulkey.

Happy tidings are in the offing for the Sonja Henie fans!

"Happy Landing," a show aglow with joy-laden wonder, winging from gay Norseland festivals to New York winter-time spectacles, comes to the Strand Theatre on Sunday and Monday, with a Sonja radiant beyond imagining.

This 20th Century-Fox musical of superlative splendor comes from Hit-Creator Darryl F. Zanuck and stars Sonja Henie with her "One In A Million" sweetheart, Don Ameche.

It tells the story of a song-writing band leader (Cesar Romero) who flies across the Atlantic for a publicity stunt and comes down in a Norwegian fog-bank—almost in the middle of a folk festival known as a "Bride's Fair." The custom which starts the trouble is a rule that if a young man dances twice with the same girl at the party, he has proposed.

The band leader, a little bit amused because one lovelorn little girl is giving him plenty of his favorite food—hero worship—dances twice with Sonja Henie. That starts the silvery, sumptuous show on its way.

Don Ameche, the flying baton-wielder's companion, knows there is little or no sincere interest in Romero's attentions, inasmuch as he is very much engaged to an American girl played by Ethel Merman. From this point on a whole new world of happiness opens for film fans.

A Sonja breathlessly in love, breath-taking on the ice, thrill as she never thrilled before!

There are the colorful American winter carnivals, the glittering gaities of Paris and Miami, the breathless ice ballets of New York roof-gardens—and songs, songs, songs!

The songs by Pokrass and Yellen include "Hot and Happy," "A Gypsy Told Me," "You Are the Music to the Words of My Heart," and "Yonny and His Oompah." Walter Bullock and Harold Spina, who wrote most of the hit tunes for "Love and Hisses," contributed "You Appeal to Me" to the score of "Hot and Happy."

This astonishing girl, who captured the hearts of outdoors-loving America with her witchery on the ice and who overnight became the dramatic find of moviedom, is more dazzling than sunshine on ice, as she sweeps her beholders out of a world of day dreams into a world of dreams come true.

Jean Hersholt, Ethel Merman and Cesar Romero are featured in the cast of "Happy Landing."

Montevallo Cafe and Bakery

Operate Modern Cafe and Bakery;
Both are very popular

No business in the Montvallo section has come to the front more rapidly and successfully than the Montevallo Cafe and Bakery.

P. E. Woolley, wner, has operated the business about two and one half years, and during this short period he has built up a patronage that has by far exceeded his expectations.

They sell "Betsy Ross" bread and Ambrosia Cakes, which are giving the local public such fine satisfaction.

The cafe is one of the busiest places of its kind in this section of the state. Good food, good service, and reasonable prices are the reasons for this. Mr. Woolley and all who are connected with the business extend a hospitality which makes it a pleasure to call here.

Mrs. E. H. Wills returned Saturday from a several weeks visit with relatives in New York and Chicago.

Wilson Drug Co.

Offers Best in Drug and Prescription Service; Is Popular Place

The Wilson Drug Company is one of the oldest established drug houses in this section of the state. P. C. Wilson opened the business in 1918, and it is known far and wide as a place where the best in drug and prescription service is rendered.

The store is located on one of the most popular corners in town—made popular by the fact that this is a meeting place for practically everybody in this section.

The soda fountain is a distinct feature, and they have provided a great many tables where a large number of people can be served at one time. It is seldom indeed that a person calls here and does not see a large number of people enjoying a cold drink or ice cream.

Mr. Wilson served Montevallo as postmaster for three years, and few men put forth greater effort in helping to work for the good of the town than he does, and his business is a credit to Montevallo.

Whaley Furn. Co.

Operate the only Exclusive Furniture Store in this territory

The spring season is near at hand and the Montevallo Times takes advantage of this opportunity to call the public's attention to the fact that there is no need to leave here to secure anything needed in furniture or house furnishings, as the Whaley Furniture Company carries everything needed to furnish a home complete. There is no store in the state which offers good furniture at lower prices.

Those who need furniture will find it an advantage to call and look over the complete stock and get ideas for furnishing their home or adding some new furniture.

In addition to carrying a large stock of furniture, they also sell radios, including Philcos, which is one of the most popular radios on the market.

R. E. Whaley, owner, operated a furniture store in Birmingham before opening this store several years ago, and the business is indeed a credit to Montevallo.

The free delivery service is proving to be a popular feature of the business as he offers free delivery day or night, and a great many people are taking advantage of this service.

Short orders and soft drinks of all kinds are served and a person has only to visit his place to know that it is sanitary from front to back as he keeps it immaculately clean. This, together with the wholesome food and good service, make it a pleasure to either call or place an order here.

Jeter Mercantile Company

Carry Complete Stock of Merchandise, Also Funeral Directors

The Jeter Mercantile Company was established at the turn of the new century, in 1900, and during the thirty-eight years of its existence it has always been one of the leading mercantile concerns in the Montevallo territory.

Their general merchandise stock is the largest carried here. Almost everything to wear for everybody, and groceries are carried. The busi-

ness has been operated here so long that many old customers look upon it as more of an institution than just a store, as any number of local people have traded here for a generation or more.

Old customers as well as new ones find it an advantage to trade here on account of the fact that they can secure everything to wear and eat under one roof.

In addition to the general merchandise stock, they are also funeral directors. They have every modern equipment to aid them in carrying out this work, and the good service rendered is greatly appreciated by those who have found it necessary to call on them when the unexpected happens.

M. P. Jeter is so well known to everybody in Montevallo and this section that no introduction is

Hicks Variety Store

Carry Large Stock of 5c and 10c Goods

Few, if any, towns in the state the size of Montevallo can boast of a more up to date variety store than the one Mr. and Mrs. Hicks operate here.

In fact, when a person enters the door for the first time he is not only impressed with the large stock, but the attractive way it is arranged and displayed make it a business that adds much credit to the district.

Another feature of the business is that none of the large five and ten cent stores in the cities offer good merchandise at lower prices, and that the public appreciates it is shown by the large number of local people who do all of their trading in this line here.

They have an up to date business and well deserve the popularity they have attained.

Mr. and Mrs. Hicks also operate the Plaza Grill, which they purchased about one year ago. It's a very popular place.

Business Women Met In Tuscaloosa

The Fourth District of the Alabama Business and Professional Women met for a two day session on last Saturday and Sunday in Tuscaloosa. The Tuscaloosa Business and Professional Women acted as hostesses with the assistance of their Junior Club members. Among the Montevallo Business and Professional Women who attended the meeting were Dr. Hallie Farmer, Mrs. Stanley Mahan, Mrs. Denson Elliott, Miss Lelah Brownfield and Miss Tracy.

More than sixty women from different sections of the state were present as representatives of their respective clubs. They gathered for a banquet on Saturday evening at the McLeister Hotel. Here all the women enjoyed the companionship of their fellow members from other parts of the state as well as the delicious food served at the banquet.

Dr. Hallie Farmer spoke to the group about political leadership among the women of our state. She urged the listening women to acquaint themselves with some of the very real needs and problems that press on our government agencies and political leaders. These call for understanding, she said. Dr. Farmer reminded the women that the state is in need of intelligent, consecrated non-partisan leadership in affairs of state. She made the point that the Business and Professional Women of the state were peculiarly fitted to participate in this kind of politics and that the time had come when they must identify themselves with issues that involve our social welfare. Dr. Farmer's talk was enthusiastically received by everyone who heard her, and was the subject of approving comments on the next day of the conference.

a breakfast and was followed with talks from representatives of the clubs throughout the state. They discussed what their respective towns produced and about marketing of their products. A luncheon followed the morning session, and in the afternoon business matters were brought up and discussed. The Montevallo delegation returned feeling that they had had a pleasant and profitable time.

These drawings pictured the Negro race in various ways.

W. T. Burnett Killed In Shooting Spree

A shooting spree at Calera last Monday resulted in the death of W. T. Burnett, age 65, operator of a shoe repair shop. The unfortunate incident has been widely and variedly reported in the daily papers of the state.

Investigation by Sheriff Fore, it is said, has satisfied the official that Burnett's death was caused when he was shot by C. H. Woodward, age 68, and that the sheriff has entered a murder charge against Woodward.

Burnett shot himself once, according to evidence, but sustained only a slight wound. He also fired at a neighbor, and Mrs. Burnett left the house.

When he followed his wife, continuing shooting, it was then that he was felled by a shot from a gun in the hands of Woodward.

Burnett died as he was being carried to a hospital in Birmingham.

Montevallo Babies To Be Presented In Palmer Hall at Close of Popularity Race

Proud mothers will parade their youngest in the baby popularity contest sponsored by the Montevallo Alumnae Chapter, beginning March 7.

The "tiny tot" contest will climax March 21 with a baby show in Palmer Hall.

Each of the entrants will be sponsored by an alumna and by two junior sponsors from the training school. Each class of the College is to sponsor six babies. They will compete for first places for their entrants.

Of the twenty-four babies entered in the contest, the youngest is Mac Stinson, age six months. Carlisle Towery, another entrant, will celebrate the opening of the contest with his second birthday, on March 7.

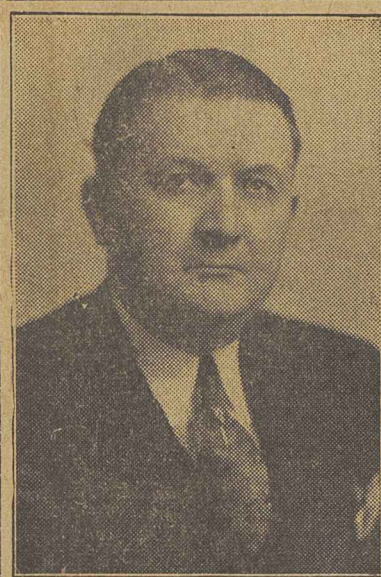

Votes for the entrants are to be sold at five cents each. At regular intervals during the contest, returns from the voting will be flashed on the screen at the Strand Theatre.

Money from the contest is to be used to decorate and furnish a room in Main Dormitory for the use of local college students. The remainder is to be used on a pledge made by the Montevallo Chapter to the State Alumnae Association.

The alumnae chapter of the state securing the largest amount of money in proportion to the number of students enrolled from the county will be the winner of a \$25 gift scholarship. This scholarship is to be used by some entering freshman chosen by the chapter.

Miss Ethel Harris, chairman of the ways and means committee, is general chairman of the baby contest. Members of the publicity committee are Miss Eloise Meroney, chairman; Miss Martha Allen and Miss Lenice Vaughan. The program

Johnnie Hardy Enters Local Business Field

The many friends of Mr. Johnnie Hardy in Montevallo will be glad to learn that he has come back here to live and engage in business. This week he purchased the Montevallo Cleaners and Dyers from Mr. L. D. Gilbert.

Mr. Hardy is a very popular and highly esteemed young business man. For the past two years he has been traveling the State of Mississippi for a wholesale drug concern. Prior to that he worked in Montevallo, being successively with the Montevallo Drug Company and Hayes Chevrolet Company.

The Montevallo Cleaners and Dyers is a business that has enjoyed a wide popularity under its former owner, Mr. Gilbert, and those who constitute its large circle of patrons may be assured that Mr. Hardy will carry on the business with the very highest degree of service.

BROWN AND SMART WILL BE GUEST SPEAKERS AT MEETING

With Dr. W. A. Smart, of Emory University, Atlanta, Ga., and Dr. Harvey C. Brown, of Nashville, Tenn., as guest speakers and leaders, an Aldersgate Christian mission, one of a south-wide series of 85, will be held for Methodist students in Alabama College at Montevallo, March 1, according to the Rev. O. R. Burns, pastor of the First Methodist Church, who is co-operating with student leaders in promoting the mission.

The visiting leaders are prominent in the field of religious education. Dr. Smart, who is professor of Biblical theology at Emory University, is a graduate of Vanderbilt University, Nashville, Tenn., and of Union Theological Seminary, New York City. He has done graduate study at the University of Chicago and holds honorary degrees of doctor of divinity from Southern Methodist University, Dallas, and Ohio Wesleyan University.

Dr. Brown, who will accompany Dr. Smart, is a native of Alabama. Prior to coming to his present post as director of the Wesley Student Movement in the Board of Christian Education (1933), he filled positions at Woman's College of Alabama and the University of Tennessee.

The Aldersgate missions are units of the Methodist-wide Aldersgate Commemoration sponsored by the College of Bishops of the Methodist Church South, to celebrate the bicentenary of the evangelical conversion of John Wesley, founder of the Methodist Church, which took place in 1738 at a religious meeting Aldersgate Chapel, London.

The series of missions to students in southern colleges are expected to reach approximately 80,000 young Methodists enrolled in church-related and tax-supported institutions of learning. In addresses, forum discussions and personal interviews an effort will be made to impress students with the importance of a personal experience of religion that will result in Christian social action on the campus and in the world.

The Board of Christian Education, headquartered at Nashville, Tenn., is directing the student participation in the Aldersgate Commemoration in cooperation with Bishop A. Frank Smith, of Houston, Texas, director of the entire movement.

J. M. Lyon Points To Reduction of Debts

Mr. J. M. Lyon, President of the Board of Revenue of Shelby County, is seeking re-election to that office this year. He has announced as a candidate in the Democratic Primary of May 3.

"Elect a man of proven ability" is the slogan of Mr. Lyon in his campaign. He has served in this important office and will ask the voters to re-elect him on the strength of his record as a public servant.

The following statement to the voters was released for publication by Mr. Lyon Monday:

"I believe the voters and my friends are entitled to know the condition of the records on file in the Board of Revenue office when I came in the office, and as I am making a race for re-election to this important position, and running on my record since I took office in 1934, I submit the following figures for your consideration when casting your vote:

Bonds outstanding, Jan. 1, 1934, \$358,000.00; Jan. 1, 1938, \$320,000.00.
Newell Road Warrants, Jan. 1, 1934, \$6,000.00; Jan. 1, 1938, none.
Columbiana Savings Bank Temporary Loan, Jan. 1, 1934, \$43,320.00; Jan. 1, 1938, none.
Current accounts, Jan. 1, 1934, \$13,914.39; Jan. 1, 1938, \$10,927.07.
Total, Jan. 1, 1934, \$421,284.39; Jan. 1, 1938, \$330,927.07.

"The above records show we have reduced the county's indebtedness the past three years \$90,357.32. When I assumed the president's chair in the Board of Revenue office, in January, 1934, I found that on the Temporary Loan listed for \$43,320.00 we were paying 6 per cent interest. We called a conference with the officials of the Columbiana Savings Bank, and were successful in reducing this 6 per cent interest to 5 per cent. We are steadily making progress and have recently contracted for a net work of paved highways which will give Shelby County a system of good roads second to none in the state. In addition, Shelby County has excellent equipment for the maintenance of its roads and bridges. We are eliminating all the wooden bridges with concrete bridges, rock culverts and corrugated metal pipe as fast as possible.

I earnestly request your continued loyalty, influence and vote, and pledge my conscientious efforts toward creditably serving the people of my native county."—J. M. Lyon.

Meanwhile, I hope the people will reserve decision on this important matter until I shall have time to place my platform before them."

ALABAMA IS SEEKING
COTTON LABORATORY

Auburn, Ala.—Alabama is bidding for the cotton experimental laboratory provided in the new farm bill. Dr. L. N. Duncan, president of the Alabama Polytechnic Institute, is leading the campaign for the laboratory.

"Our first step," said Dr. Duncan, "is to ascertain requirements of a locality or state seeking one of the four regional research laboratories, which incidentally, receive \$1,000,000 annually for buildings, equipment, and maintenance."

In addition to Dr. Duncan, members of the campaign committee include: Governor Bibb Graves, Theodore Swann, Birmingham industrialist and member of the State Industrial Development Board, Benjamin Russell, Alexander City, manufacturer and president of the Alabama Chamber of Commerce, R. J. Goode, Alabama Commissioner of Agriculture, Donald Comer, textile mill chain operator and member of the Alabama Public Works Board, Dean M. J. Funchess, chief of state agricultural experiment stations.

Senators Bankhead and Hill have proposed to Secretary Wallace that Alabama is the best state for the cotton experimental laboratory.

TO ALL POULTRYMEN

Farmers throughout Shelby County are wondering what they can do to increase the cash income in 1938, as they see very little hope in cotton. Chickens properly cared for and fed largely on home-grown feed will meet this need.

In 1937, farmers over the state kept records on their flocks, and the average hen laid 171 eggs during the year, bringing in a cash income of \$3.61; this left a net income above feed cost of \$1.46—all feeds being charged at market price.

These figures show that 100 hens properly cared for will bring in on an average of \$1 per day during the year, and will furnish a ready market for the extra corn and oats grown on the farm.

Upon investigation, we find that 200 car loads of outside eggs were stored in Birmingham last year and used to supply the market at our door. Since most of these eggs were shipped long distances, we ought to be able to compete with these people in supplying this market.

I want to urge you if you have not already done so to make plans to grow out a good bunch of pullets this year to maintain a steady cash income to take care of the current operating expenses of the farm.

If I can be of help to you with your poultry problems, please call on me.—A. A. Lauderdale, County Agent.

CERTIFIED POTATO SEED
PRODUCE MORE POTATOES

Auburn, Ala.—Certified Irish potato seed are much better for planting purposes than uncertified seed.

"If there is a proved fact in agriculture, it is to be found in the increased value of certified potato seed over uncertified seed," says Prof. L. M. Ware, head of horticulture and forestry department, Alabama Polytechnic Institute.

In the United States and Canada, 11,627 comparisons have been made of certified and uncertified seed. Certified seed have yielded in this vast number of comparisons an average of 46.4 bushels per acre more than uncertified seed. This means that with no more land, labor, or fertilizer, certified seed gave 46.4 bushels more potatoes per acre.

In 314 tests in Michigan the average increase for certified seed was 73 bushels per acre; in 64 tests in Nebraska the average increase was 150 bushels per acre; in 220 tests in Kentucky the average increase was 42 bushels per acre; in 31 tests in Louisiana the average increase was 41 bushels per acre.

Tests in Alabama in 1937 to determine the eligibility of seed potatoes for certification in Alabama showed in one set of tests where 94 different seed lots were being tested 20 lots which produced more than 200 bushels per acre, whereas 19 other lots produced less than 125 bushels per acre. There were 3 lots which produced more than 220 bushels per acre and 4 lots which produced less than 100 bushels per acre. The difference was due to the quality of the seed.

"Insist on certified seed. The odds are very high that you will get much for very little added cost," Prof. Wart advises.

PRESS WILL MAKE TRIP TO WASHINGTON

Washington is the city which the Alabama Press Association has chosen as the objective of this summer's trip, and the latter part of June will find several hundred Alabama newspaper men, their families, and friends on their way toward this goal.

A gala time is in store for them. Several days in the capital of the nation, with sightseeing and many courtesies, among them being a visit to the White House, will be but one part of this interesting trip, as the party is planning to visit Annapolis, Mt. Vernon, Arlington, and possibly go on to New York and home by water.

The trip will be a week of pleasure and sightseeing at a very moderate outlay.

Two years ago the Press visited Havana, the capital of Cuba, and opened the trip to those others who desired to take advantage of the pleasures arranged for the newspapermen. This June's trip will also include those others who desire to accompany the Press Association, and this newspaper will shortly have full details for those of its friends who are interested in making the trip.

Complete itinerary is now being made up and as soon as it is available, the details of the trip will make interesting reading.

BOY SCOUTS

(By John Orr)

The most important thing on the bat for the Scouts this week is College Night. They will aid Mr. Rhodes in supervision of traffic on Friday and Saturday when the overnight guests start pouring in.

Monday night at Scout meeting Mr. Rhodes explained all the duties which the boys will have to perform. The main one will be to direct cars to the parking lots. Other duties will be to keep cars from parking in the wrong places, to make cars go the right way on one-way streets, to direct visitors to the right dormitories and to help untangle any traffic jams that may arise. Other duties of course will arise.

Mr. Rhodes said that "five-minute" parking will not be tolerated because five minutes often run into hours.

In conclusion, Mr. Rhodes said if the Scouts follow the theory of "be nice to them and they'll be nice to you," everything will come out fine.

Last Call For Work Sheets of 1937 Farms

We held a series of meetings all over Shelby County last week to help cotton farmers who did not make a work sheet in 1937 to make this work sheet. Most of this work was completed at that time; however, there are others yet, and I do not want a single farmer left out.

I want every farmer to know this right now: There will be a cotton acreage allotment for every cotton farm in 1938. In order for each farm to get its share of the acreage, it is absolutely necessary to have a record of the farm; this is, also necessary in order to draw the subsidy payment up to 12 cents per pound on 1937 cotton.

This is for your benefit, and we want to help you in every way possible. If your farm was in the 1937 program, or if you made a work sheet last week, this letter does not apply to you. All those who have not made a work sheet for 1937, please meet us in your community at the time and place designated below, or come to the County Agent's office at once, as this is your last opportunity. Very truly yours,—A. A. Lauderdale, County Agent.

RURAL WOMEN AND GIRLS PRODUCE \$8,250,000.00 WORTH OF FARM PRODUCTS

Auburn, Ala.—Over \$8,250,000 worth of farm products was produced by 54,781 rural women and girls in 61 Alabama counties during 1937, reports Helen Johnston, state home demonstration agent, in summarizing reports from county home demonstration agents.

The report shows that \$6,832,377.92 worth of products was produced and consumed at home and \$1,457,399.08 worth was sold for cash.

Cash sales included: \$366,777.08 on 16 curb markets; \$216,293 of fruits and vegetables; \$301,066 of eggs; \$206,345 of poultry; \$256,818 of dairy products from home dairies; \$63,920 of food products; \$10,116 home industries; \$6,305 in prizes; and \$29,759 in other ways.

Products produced and consumed at home included: \$2,271,000 of fresh fruits and vegetables from home gardens; \$1,736,012.92 of fruits, vegetables and meats conserved for home use during the winter; \$1,305,700 of dairy products from home dairies; \$1,082,053 of poultry products; \$317,042 saved on garments made at home; \$37,188 saved by home dry cleaning; and \$82,452 saved through home management and home furnishing program.

The first tenant loan under the Bankhead-Jones Farm Tenant Act was made to Wiley J. Langley and family of Walker County, Alabama, on February 12. The loan totaled \$3,800 for purchasing a 180-acre farm, repairing the home and out-buildings, fencing pastures, and buying farm equipment.

Emergency crop loans for 1938, as authorized by joint resolution of Congress, approved Feb. 4, will be available to farmers within the next few days, reports the director of the emergency crop and feed loan section of the Farm Credit Administration. The largest amount which any one farmer may borrow from the emergency crop loan offices in 1938 is \$400. The interest rate on the loans is 4 per cent a year.

SOUTHERN FARMERS TO VOTE MARCH TWELFTH

Auburn, Ala.—Alabama farmers, together with those throughout the South, will vote March 12 on whether or not cotton marketing quotas will be put into effect during 1938.

All farmers who produced cotton in 1937 will be eligible to vote, announces P. O. Davis, director, Alabama Extension Service, in expressing hopes that all cotton farmers vote. The ballot will be secret.

"Do you favor cotton marketing quotas for the 1938 crop?" is the question appearing on the official ballot.

If approved by two-thirds of the cotton producers voting in the referendum, cotton marketing quotas will be put into effect this year.

If marketing quotas are disapproved by more than one-third of the farmers voting there will be no cotton loans, regardless of how low the price may go, on the 1938 cotton crop.

On the other hand, if quotas are approved, cotton loans will be made available when the average price is below 52 per cent of parity or the August crop estimate is greater than a normal year's domestic consumption and exports. The rate of loans to cooperators will not be less than 52 per cent nor more than 75 per cent of the parity price (at present, parity is about 16 cents per pound) at the beginning of the cotton marketing year which begins on Aug. 1.

The importance of farmers seriously considering the cotton situation before voting is emphasized by the fact that the present supply of American cotton is almost 25,000,000 bales, resulting largely from the record crop of 18,700,000 bales in 1937. About 13,000,000 bales of American cotton are consumed annually. This means that there is sufficient American cotton on hand at present to supply the normal demand for almost two years.

Reports indicate that many Alabama farmers are profiting from one-variety cotton communities. Growers in 103 one-variety communities last year earned \$450,000 in premiums for quality cotton and from increased yields, says a report from the AAA to J. C. Lowery, agronomist, Alabama Extension Service. There are at present 781 one-variety communities in the cotton-producing states.

Mills that buy cotton seed on the basis of official grade help themselves as well as the farmers from whom they buy seed, reveals a study made by the United States Bureau of Agricultural Economics.

High School News

(By Bob Anderson)

The dance given by the Senior I Class last Saturday night was a big success. The hop was held in Room 207 at the High School. The room was decorated with blue and orange crepe paper. Music was furnished by the Rock-ola. Features of the dance program were a Big Apple, class officer lead-out, and an old-fashioned Paul Jones. The dance was enjoyed by several faculty and town chaperones as well as the students.

At a meeting of the Arista Club, High School honor society, last week, it was decided that initiations would be planned and given to new members in the near future. A committee was appointed for this purpose. The question of the annual banquet was discussed and it was suggested that the banquet be held this year in April.

The Senior II Class, in a recent class meeting, planned the annual dance which they give to the Seniors. This dance is to be held at the high School this year, and will be March 18, immediately following the Senior play.

In the contest sponsored by the "Spotlight," for the Curtis Magazine Company, the club raised about forty dollars for its bank account. This shows the profits on about one hundred dollars worth of subscriptions sold. The club had been divided into two sides for the contest. The side led by Miss Anne Appleton sold the most magazines and has been awarded the prize, a five-pound box of candy.

KUDZU REPRODUCED FROM VINE CUTTINGS

Auburn, Ala.—Using kudzu vine cuttings instead of crowns proved an effective and economical method of getting kudzu established on the farm of B. M. Lightfoot, who is cooperating with the Soil Conservation Service and the Alabama Extension Service in the erosion control program in the Brundidge CCC camp area.

The plantings were made to control erosion on a 10-acre field by laying off 10-foot rows and making a bed of four furrows. The bed was opened with a shovel plow and vine cuttings four or five feet long were laid end to end in the furrows. A ridge of two furrows was thrown on the cuttings.

The stand from the vine cuttings averaged 57 per cent, on the basis of a plant every six feet in the rows, O. C. Medlock, state coordinator of the Service, reports. The kudzu vines, where there was any topsoil left, made unusually good growth. Some of the vines produced runners 20 to 25 feet the first year.

Although cuttings were gathered almost 10 miles from the farm, four hands obtained enough cuttings in two days to plant the 10 acres, Mr. Lightfoot said. One day was required for the four hands to prepare the land and one day for planting the cuttings.

Miss Gene Lewis, a student at the University of Alabama, spent the week-end with her parents, Mr. and Mrs. J. R. Lewis.

But It's True-----!

Queen Victoria, mother of Edward VII, was very strict with her son. She insisted that when he went out for the evening he report to her on his return. Despite this Edward, while Prince of Wales, established a reputation as something of a man-about-town.

A cleft tongue defied expert surgery for the first 42 years of Miss Northwood's life, and during that time she did nothing at all in the way of endeavor. But, when the fourteenth operation proved successful, she turned immediately to literary work.

LIMESTONE TO VOTE ON MALARIA CONTROL

Attention of the people of the state was called today by Dr. J. N. Baker, State Health Officer, to the importance of an election to be held on Tuesday, May 3, at which the voters will express themselves on a proposed amendment to the state constitution authorizing the citizens of Limestone County to vote a special tax of one mill to be used exclusively for malaria control work in the county.

Dr. Baker, in emphasizing the benefits to accrue to Limestone County, called attention to the good that will result, not only to public health, but to agriculture.

"Indeed," he said, "It would be gratifying if, after the election, which I hope will be favorable, other counties would follow Limestone's example and seek legislative authority to pursue a similar course in their respective jurisdictions."

BIRMINGHAM DOG SHOW

April 9 and 10 are the dates for the Birmingham Kennel Club's annual dog show this year, and advance indications are that registration will exceed that of 1937 when a Southern record was set. Exactly 508 dogs were shown last year and the club's goal this year is in excess of 600 dogs. Weekly meetings are being held and President Hugh Seales reports much enthusiasm on the part of members for putting the show over. Collection of trophies closed on Monday, Feb. 21, and from now until the show opens on April 9 a campaign of education will be conducted to make Birmingham dog show conscious.

Mrs. P. D. D. Pendleton, Mrs. Cooper Shaw, Mrs. C. S. Starr and Mrs. P. E. Lee spent Friday in Birmingham.
